Source: *Moffett / UFO Crash Retrieval Conference*

Summary: *Biography of Reme Baca, one of the main witnesses to the 1945 New Mexico crash.*

BIO OF REME BACA from Moffett's article:

Remigio Baca of Gig Harbor, Wash., was born in San Antonio in October, 1938, to Evarista Serna and Alejandro Baca. He attended San Antonio Grade School and Socorro High until he transferred to Stadium High in Tacoma, Wash., in his freshman year.

Reme served in the Marines for six years during the Vietnam War, worked as a tax compliance officer for the Washington Department of Revenue, and was involved in Washington politics. A meeting with Vernon Jordan, national chairman of the Urban League, encouraged him to get into politics, which he did with enthusiasm.

Reme was instrumental in the election of the famous scientist and Nixon administration politician Dixy Ray Lee to the governorship of Washington as a Democrat, and served on Ray's executive staff.

In that role, he helped get qualified Latinos in administrative positions in government. When Lee was defeated, Reme became an insurance agent in Tacoma, moved to California for awhile as an independent insurance broker in Oxnard, Santa Paula and Santa Barbara, and retired in Gig Harbor, a suburb of Tacoma.

He has been married for years to Virginia Tonan, a classical pianist and teacher.

He has been back to San Antonio many times, and has relatives in Socorro County.
